

For the prevention and cure of
BILIOUS and MALIGNANT FEVERS
is recommended.
Hahn's ANTI-BILIOUS PILLS
THIS Medicine has been attended
with a degree of success highly grateful
to the inventor's feelings in several parts
of the West Indies and in the Southern
and Middle States, &c.

The testimony of a number of persons
can be adduced, who have reason to be-
lieve that a timely use of this salutary re-
medy has, under Providence, preserved
their lives when in the most alarming cir-
cumstances.

Facts of this conclusive nature speak
in favour of a medicine than of com-
mons of pompous eulogy founded on
mere assertion.

It is not indeed presumptuously pro-
posed as an infallible cure, but the inven-
tor has every possible reason that can re-
sult from extensive experience for be-
lieving that a dose of these Pills taken
in every two weeks during the pre-
valence of our bilious fevers, will prove
an infallible preventive; and further,
that in the earlier stages of those diseases
their use will very generally succeed in
restoring health, and frequently in cases
steamed desperate and beyond the pow-
er of common remedies.

The operation of these pills is perfectly
mild, so as to be used with safety by per-
sons in every situation and of every age.
They are excellently adapted to carry
off superfluous bile and prevent its mor-
bid secretions—to restore and amend the
appetite—to produce a free perspiration
and thereby prevent colds which are of-
ten of fatal consequences. A dose never
fails to remove a cold if taken on its first
appearance: they are celebrated for re-
moving habitual costiveness—sickness at
sea and severe head-ache—and
ought to be taken by all persons on a
range of climate.

They have been found remarkably effi-
cacious in preventing and curing disor-
ders attendant on long voyages, and
should be procured and carefully preserv-
ed for use by every seaman.

Hamilton's Elixir,
A sovereign remedy for colds, ob-
stinate coughs, asthmas, sore throats, ca-
rries, and approaching consumptions.—
To parents who have children afflicted
with the **HOOPING COUGH**, this dis-
covery is of the first magnitude, as it af-
fords immediate relief, checks the pro-
gress, and in a short time entirely re-
moves the most cruel disorders to which
children are liable. The Elixir is small,
perfectly agreeable, and the dose so small
that no difficulty arises in taking it.

Hamilton's Grand Restorative,
Is recommended as an invaluable me-
dicine for the speedy relief and perma-
nent cure of
Nervous Disorders Violent cramps in
consumptions the stomach and
ownness of spirits back
loss of appetite Indigestion
purity of blood Melancholy
hysterical affection Gout in the stomach
stomach weakness Pains in the limbs
and debility Relaxations, etc.

**Hamilton's Essence and Extract of
Mustard.**
A safe and effectual remedy for acute
and chronic rheumatism, gout, rheumatic
out, palsy, lumbago, numbness, white
swellings, chilblains, sprains, bruises, pain
in the face and neck, etc. etc.

Lee's Ointment for the Itch.
Warranted an infallible remedy at one
application, may be used with perfect
safety by pregnant women, or on infants
week old, not containing a particle of
mercury or any dangerous ingredient
whatever, and not accompanied with that
venomous smart which attends the ap-
plication of other remedies.

**Hahn's true & genuine German Corn
Plaster.**
An infallible remedy for corns, speedi-
ly removing their root and branch, with-
out giving any pain.

The Genuine Persian Lotion.
So celebrated among the fashionable
roughs of Europe, is an invaluable cos-
metic, perfectly innocent and safe, free
from corrosive and repellent minerals,
the basis of other lotions, and of un-
paralleled efficacy in removing blemishes
the face and skin, freckles, pimples,
laminary redness, scurfs, tetter, ring-
worms, sunburns, prickly heat, &c.

Hahn's genuine Eye Water,
A sovereign remedy for all diseases of
the eyes, whether the effect of natura
lness or of accident.

Tooth Ache Drops.
The only remedy yet discovered which
gives immediate and lasting relief, in the
most severe instances.

Hahn's Infallible Ague and Fever Drops
for the cure of agues, remittent and
intermittent fevers.

At the place of sale pamphlets
may be had gratis, describing cases per-
formed by the above medicines; the num-
ber, importance and respectability of
this, fully justify every article of this
entertainment.

Fan-ash Making.

METAL FAN-SASHES, of various
descriptions, will be made by the
subscriber, at his shop, lower end of Duke
street. The want of a Metal Fan-Sash
Manufacture in Alexandria, has hitherto
been severely felt by builders and oth-
ers, who have been compelled to make
use of wood, which is neither elegant nor
durable. The various forms into which
the metal can be shaped have given it a
decided superiority, and the difference in
the price is very trifling. The subscriber
has been at considerable expence in pro-
curing the necessary preparations, and
relies on public enterprise for success in
the undertaking.
Gentlemen in the country, by sending
the dimensions of their sashes, can have
them made at the same price as if in town.

Proposals

FOR Publishing by Subscription, and
now ready for the press, a series of
historical volumes, which when finished
will assume the title of

Universal History Americanised;

Or, an historical view of
Europe, Asia, Africa and America,
from the earliest records to the nineteenth
century—with a particular reference to
the state of society, literature, religion,
and form of government in the United
States of America.

BY DAVID HANSAT, M. D.

"Life is so short and time so valuable,
that it were happy for us if all great
works were reduced to their quiten-
essence."
Sir William Jones.

PROSPECTUS.

THE Asiatic part of this work contains
a general view of the antediluvians—of
the general deluge—of the re-settlement
of the globe after that great event—of
the primitive postdiluvian nations, which
were formed in Asia, the cradle of the
world. Their various ramifications, re-
volutions, and of the general course of
Empire.

AFRICA.
The African part, contains a concise
history of Egypt, Carthage, Numidia,
Mauritania, Abyssinia, of the Placental
States, and the Hottentots, with a group-
ed view of its uncivilized settlements.

EUROPE.

The European part, contains the his-
tory of Greece and Rome, from their
origin to their dissolution—of the various
nations which were conquered by them—
and of the nations by which the Romans
themselves were finally conquered, and
of the nations which were formed from
the fragments of the Roman Empire, and
the various revolutions of the latter, to-
gether with a view of the nations which
never were subjected to the Romans.

AMERICA.

The American part, contains a general
history of the Western continent, under
the heads of Free, European, and Abo-
riginal or unconquered America. The
first contains a history of the United
States, from their first settlement as
English Colonies, till the present time.
The second, of all parts dependant on
Europe. And the third, of all that are
still owned by the Aborigines.

It is expected that the whole will be
comprised in 10 or 12 octavo volumes,
of between four and five hundred pages
each—to be printed in Philadelphia,
on good paper and fair types, for \$3
1-3 per volume, in sheep binding, or
\$4 1-3 Call Gilt, to be paid for on deli-
very.

AUTHORITIES.

This work has been in contemplation
upwards of 40 years. The project of
it was conceived in 1786, on reading the
Universal History, then recently edited
in 60 volumes, by a society of gentlemen
in England. The original idea of ex-
tracting the quintessence of that vo-
luminous work, which contained the
most complete system of history the
world had then seen, has ever since
been enlarging and improving by an
attentive perusal of the histories writ-
ten by Robertson, Hume, Gibbon, and oth-
er modern authors—of the Asiatic re-
searches—of the works of Sir William
Jones, and other learned Orientalists—
the publications of intelligent travellers,
who, in the course of the last half cen-
tury have explored almost every region
of the globe. These collectively have
thrown a blaze of light on countries com-
paratively unknown, and on portions,
both of ancient and modern history which
were confused and obscure at the period
when the writers of the Universal History
published their work. The arrange-
ment of materials collected from these
sources commenced in the year 1780,
when, in consequence of the surrender
of Charleston to Sir Henry Clinton, the
author was suddenly released from a sea
of business and sent as a prisoner of war
to the British Garrison then in St. Au-
gustine, and there confined for eleven
months, without any peculiar employ-
ment. Steady progress has been made
for the last ten years in correcting and
transcribing the work for publication.

UNITED STATES.

The History of the United States is
given at full length—that of foreign coun-
tries is more or less expended or con-
tracted in proportion to the intrinsic im-
portance of each—its tendency to illu-
strate portions of Holy Writ—the Greek
and Latin Classics—and also in propor-
tion to its connexion with the U. States,
or as furnishing useful practical infor-
mation to its citizens, or as the paternal
soil of their ancestors.

The above sketch of the nature and
objects of this immense work, which has
occupied the attention of the Author for
upwards of 40 years, was found among
his papers, and is now given to the pub-
lic in his own words. Since that period,
a few chapters have been added by the
Reverend **SAMUEL STANHOPE SMITH,**

which brings it down to the close of the
last war.

The publication commences with a
third impression of the History of the U-
States, in three volumes, which is all that
has ever appeared. The whole will not be
delivered under 15 or 20 months. It is
proper to state, that the gentlemen
who have the direction of it are neither
booksellers nor printers, and receive no
pecuniary consideration for their trouble
—but are willing to make the necessary
advances to carry it into execution pro-
vided the sale is warranted by public pa-
tronage. The profits arising are to be
appropriated for the support and educa-
tion of his children, four of each sex; to
them its success is a matter of deep im-
portance.

STOMACHIC BITTERS.

These celebrated bitters are composed purely of vegetables of the most innocent, yet specific virtues, and are infinitely superior to any thing yet discovered, for restoring weak and decayed constitutions, destroying worms, clearing and strengthening the stomach, increasing the appetite, and by the frequent use of them, they are a certain preventive against those complaints so common in the spring and fall seasons, such as intermittent fevers, dysenteries, &c. They are also of infinite service to those in the clearing line, who make long voyages at sea, and are exposed to unhealthy climates—a preventive against contagious disorders—they are also a very pleasant bitter and are particularly recommended for the use of Taverns and Public Houses, as well as private families.

Land for Sale.
THE Subscriber offers for sale, about 2000 acres of land in Fairfax county, not more than seven to nine miles from Alexandria. The property is well watered, has a sufficiency of wood, and judging from the condition of small and well cultivated farms that adjoin it, it is highly susceptible of improvement. It is at present divided into tenements, of from one to two hundred acres, each provided with a dwelling house, out houses, a garden and orchard; and might, of course, be laid off into four or five very compact farms. The principal object of the subscriber, being the introduction of a good system of husbandry into this neighbourhood, he will sell on very moderate terms, give a long credit on the whole amount of the purchase money, and require no other interest, than what the present rent of the land pays, being about 3 per cent. on its estimated value.

Aromatic Snuff FOR CATARRH & HEAD-ACHE
This Snuff, as celebrated for its agreeable fragrance, and for its efficacy in the cure of recent catarrh, and slow nervous head ache, is used and approved, by the present professor of chemistry in the university of Cambridge in Massachusetts; and by some of the most respectable gentlemen of the faculty in the U. States. It is also particularly recommended by Dr. Waterhouse, late professor of the theory and practice of physic, in the above seminary; whose certificate accompanies each bottle.—Sold by **J. French Creek Boarding School.
The following is published for the information of Parents:
HAVING long believed that a School on a plan different from most others in many respects, would be beneficial to society, and apprehending that with all its cares, and the responsibility inseparable from such a concern, I could more cheerfully devote my time to the education of children than to any other business, I have concluded to establish a **BOARDING SCHOOL FOR GIRLS.**
With this view I have purchased the **FRENCH CREEK FARM**, four miles east of the yellow springs, on the Norristown and Philadelphia road, situated in Pike and Vincent townships, Chester county, twenty-seven miles from Philadelphia, combining many conveniences for the support of such an institution; and having let the farm, etc. in a way calculated to supply the family with provisions, I propose to devote my attention, with the aid of suitable assistants, to the education of the children who may be placed under my care.
In selecting the pupils, it is not proposed to be governed entirely by their age, nor to require that they shall all be members of the religious society of Friends; but as the school rules will be very few in number and very simple, it is my wish that none may be sent contrary to their own inclination, nor any one who would not be likely to be good examples to the other scholars, and treat them with kindness and affection.
The price for board and tuition will be one hundred Dollars per annum, one quarter always to be paid in advance. No restrictions respecting the kind of clothing are intended, nor respecting the frequency of the changes that parents may require; the washing will be charged at the ordinary price per dozen—children may be admitted for one quarter only, and such as are entered for a longer period, may nevertheless be removed at the expiration of any quarter. The communication with Philadelphia will be frequent and easy by stage, and a house of entertainment kept by the farmer for the accommodation of persons having business at the school.
Reading, Writing, Arithmetic, English Grammar, Geography and the use of Maps and Globes, will be taught, together with such other branches as the progress of the children and experience may render expedient. The school to open the first of the 5th month next. For further information apply to **Edward Stabler, Alexandria,** or to **EMMOR KIMBER.**

I will give the above reward, if secured in any jail, so that I get him again, and will pay all reasonable charges if brought home. Masters of vessels and others are forewarned from employing or carrying off said servant at their peril.

Thirty Dollars Reward.
RAN AWAY, on Tuesday, the 24th March, from the service of Martin Maddox, to whom he was hired for one year, my Negro Boy **BEN.** He is about 18 years of age, dark complexion, may be called black, a well made active fellow, about 5 feet 5 or 6 inches high—his clothing not known, with the exception of a pair of blue or black pantaloons, of velvet or corduroy.
Ben was last year hired to Mr. Charles Scott, of Alexandria, (who kept the livery stable), to which place it is presumed he may have gone, with an intention of getting on the northward. I will give for his apprehension on this side of the Potomac 20 dollars, or 30 dollars should he be taken on the north of the same, and secured in jail so that I get him again.

James Kennedy & Son,
RESPECTFULLY inform the public that they have just received from **LEE'S MEDICINE STORE,** No. 46, Maiden lane, New-York a fresh supply of the following valuable MEDICINES:
Hamilton's Worm-destroying Lozenges.
Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.
This medicine bears no analogy whatever to others of similar titles so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humors and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.
Description of Worms, and the symptoms by which they are known.
Worms which infest the human body are chiefly of four kinds viz.—The Terebra or large round worm; the Ascarides or small saw-worm; the Cucurbitaria or short flat white worm; and lastly, the Tenia or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.
Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and fetid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.
Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.
A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.
Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

The Restorative Powder for the Teeth and Gums.

For the prevention and cure of **BILIOUS AND MALIGNANT FEVERS** is recommended **HARRIS' ANTI-BILIOUS PILLS.**
THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.
The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.
Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.
It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason to believe that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.
The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age. They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance; they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.
They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.
